

UDSMR Impairment Group	UDSMR Impairment Group Code (Item 21)	RIC	Presumptive Compliance Exclusions	Etiologic Diagnosis	ICD-10	I-10 Description	What Should Be Documented
Stroke	<b>01.1 Left Body/ Right Brain</b> <b>01.2 Right Body/ Left Brain</b> <b>01.3 Bilateral Involvement</b> <b>01.4 No Paresis</b> <b>01.9 Other Stroke (01.9 will be excluded from 60% with certain diagnoses identified in red)</b>	Stroke (01)	<b>01.9 Not Presumptive without qualifying comorbidity.</b>	Late Effects of Cerebrovascular Disease (continued) <b>NOTE: Use only when an inpatient rehabilitation program has been used for the same stroke prior to the current admission</b>	169.05-	<b>HEMIPLEGIA/HEMIPARESIS</b> following NT-SAH: Use 6th Character (1) <b>RIGHT DOMINANT</b> side (2) <b>LEFT DOMINANT</b> side (3) <b>RIGHT NON-DOMINANT</b> side (4) <b>LEFT NON-DOMINANT</b> side (9) <b>Unspecified side</b>	-Specify type and associate residual to cerebrovascular disease i.e.: *hemorrhage (specify type: subarachnoid, intracerebral, intracranial) *cerebral infarction (with cause) *other or cerebrovascular diseases  Specify type of sequela condition: *Cognitive deficits (identify type if known) *Aphasia *Dysphasia (identify type if known) *Dysarthria *Fluency Disorder *Other or unspecified speech and language deficits *Monoplegia (specify upper/lower limb) (right/left) (dominant/non-dominant side) *Hemiplegia and hemiparesis (specify right/left side) (dominant/non-dominant side) *Other paralytic syndrome (specify right/left/bilateral) (dominant/non-dominant side)
					169.06-	<b>OTHER PARALYTIC SYNDROMES</b> following NT-SAH (i.e. G83.5 lock-in state; G82.5-Quadriplegia): Use 6th Character (1) <b>RIGHT DOMINANT</b> side (2) <b>LEFT DOMINANT</b> side (3) <b>RIGHT NON-DOMINANT</b> side (4) <b>LEFT NON-DOMINANT</b> side (5) <b>BILATERAL</b> (9) <b>UNSPECIFIED SIDE</b> * Report also additional code to identify specific paralytic syndrome	*Apraxia *Dysarthria *Other or unspecified speech and language deficits
					169.09-	<b>OTHER sequelae of NT-SAH</b> Use 6th Character (0) <b>APRAXIA</b> (1) <b>DYSPHAGIA (report type i.e., R13.1-)</b> (2) <b>FACIAL WEAKNESS</b> (3) <b>ATAXIA</b> (8) <b>OTHER</b>	*Apraxia *Facial weakness *Ataxia
					169.10	<b>Unspecified SEQUALAE of nontraumatic intracerebral hemorrhage (NT-ICH)</b>	
					169.11-	<b>Cognitive Deficits</b> following NT-ICH Use 6th Character (0) <b>Attention and Concentration Deficit</b> (1) <b>Memory Deficit</b> (2) <b>Visuospatial Deficit and Spatial Neglect</b> (3) <b>Psychomotor Deficit</b> (4) <b>Frontal Lobe and Executive Function Deficit</b> (5) <b>Cognitive Social or Emotional Deficit</b> (8) <b>Other Symptoms and Signs Involving Cognitive Function</b> (9) <b>Unspecified Symptoms and Signs Involving Cognitive Function</b>
